Bath & Body Works
Columbus, OH

Dear Bath & Body Works Team,

I am writing to apply for the **Data Analytics Summer Intern** position at Bath & Body Works. I have been using Bath & Body Works products since I was a little girl. I have a strong background in computer programming and web development, combined with an interest in data analytics. I am confident that my technical skills and passion for problem-solving will allow me to contribute effectively to your team. I am currently pursuing an AAS in Computer and Web Programming at Lake Superior College, which I expect to complete in August 2025.

Since 2014, I have developed a broad set of technical skills that I believe align well with the responsibilities outlined in your job posting. I have hands-on experience with various programming languages, including Python, Java, JavaScript, C#, and SQL, and have worked with HTML, CSS, and Unity to develop projects. I am especially drawn to your company's emphasis on collaboration and continuous learning. I thrive in fast-paced environments and am eager to apply my knowledge of data analysis tools, including Python and SQL, to assist with exploratory data analysis, dashboard creation, and data-driven reporting.

Thank you for considering my application. I would be thrilled to discuss how my skills and experiences align with the goals of your team. I look forward to the possibility of contributing to your team and am available for an interview at your convenience.

Sincerely,
Alyssa Milinkovich
